

want **MORE???** WE'VE GOT IT!

We've taken all the fabulous features of the Memory Craft 11000 and added even more to bring you the absolutely fantastic...

Memory Craft 11000 Special Edition

So What's New?

AcuFil – the new AQ Hoop means you can stipple in the hoop to create seamless embroidered all over quilting.

- 4 x AcuFil Patterns
- 20 x Stippling Patterns
- 24 x Stippling Designs

AcuFil Calculator – this smart function calculates the size of your chosen design to optimise the number of hooping needed for your quilt size. Plus you can save the design and its layout to a USB memory stick and then print from your computer. *Easy!*

47 new stitches – wonderful new decorative stitches across many of the stitch categories to give you even more options for stunning results.

Other handy functions include:

- New and improved Hand-Look quilting stitches
- Jump stitch trimming in embroidery mode from 3mm to 30mm
- Vary the embroidery speed by using the Speed Control Slider
- New Hoop Standby/Exit key allows you to move the hoop into different positions for easier trimming around appliques, etc.
- Adjustable Knee Lifter that gives up to 10 degree rotation for that personal setting
- New Cloth Guide that lets you set the distance from the needle, so you'll never sew a crooked line again!
